October 27, 2026

Dear Hiring Manager/HR Department,

Good day.

I am writing to express my interest in the Creative Media / IT Intern (OJT) position at your organization. I am currently a fourth-year student pursuing a Bachelor of Science in Information Technology at STI College Rosario.

I am particularly interested in this role because it aligns with my goal of building a dynamic career bridging technology and creative media. I am excited to contribute to your team by producing visual assets, editing media content, and supporting ongoing projects while continuing to refine my professional skills in a collaborative environment.

As part of my academic requirement, I must complete 300 hours of OJT training and am available to begin on February 16, 2026. I am committed to delivering quality work, meeting deadlines, and contributing positively to your organization.

I am attaching my resume and portfolio for your review. I would welcome the opportunity to further discuss how my technical and creative background can add value as an intern in your company.

Thank you for your time and consideration.

Sincerely,

Allen Carlo A. Lazaro

CAREER OBJECTIVE

A fourth-year Bachelor of Science in Information Technology from STI College Rosario seeking an On-the-Job Training (OJT) internship to apply knowledge in software development, system administration, and technical support while gaining hands-on industry experience.

KEY SKILLS AND COMPETENCIES

Software Development and Programming

- ✧ Foundation in object-oriented programming, game engine scripting, and database administration using Java, JavaScript, Python, C#, GDScript, and SQL.
- ✧ Designing interactive systems and game mechanics using Unity and Godot.
- ✧ Enterprise resource planning and cloud infrastructure experience with SAP ERP and AWS.

Industrial Automation and Hardware

- ✧ Programming and logic design using Programmable Logic Controller (PLC) ladder diagrams.
- ✧ Hands-on experience with cable termination and crimping (RJ45/Ethernet, control wiring)

Web Development and Multimedia Design

- ✧ Building responsive web interfaces using HTML, CSS, Tailwind CSS, and JavaScript.
- ✧ Creating 2D/3D digital artwork, graphic assets, and user interface elements.
- ✧ Video editing and post-production for technical presentations, tutorials, film and promotional material.

Technical and Organizational Skills

- ✧ System documentation, packet analysis, network cabling, and hardware/software troubleshooting
- ✧ Effective multitasking, project execution, and cross-functional team collaboration

RELEVANT EXPERIENCE

Automation / Industrial IT Intern (Work Immersion)

PIMES Corp. |2022

- ✧ Programmed and tested PLC ladder logic diagrams for automated systems and machinery.
- ✧ Performed precision wire and cable crimping for networking, control panels, and hardware interconnections.

IT Practical Training & Academic Projects

STI College Rosario | 2023 - Present

- ✧ Built front-end web layouts utilizing Tailwind CSS, HTML/CSS, and SQL database management systems.
- ✧ Developed interactive application prototypes, custom 3D/2D visual assets, and GDScript/C# gameplay mechanics using Godot and Unity.
- ✧ Designed multimedia assets and edited instructional videos for academic and capstone requirements.
